Best Practices for UAS Operations Over State Property

Although not specified in Part 107 Rules, the CFC suggests the following for optimum safety:

- Use of a visual observer.
- UAS operator should scout location site(s) of proposed drone activity in advance of filming.
- Operator should be at least 21 years of age.
- Operator should possess a Motion Picture & Television Operations Manual.
- Operator should have previous film set experience.

****IMPORTANT****

Please allow up to seven (7) business days for the CFC to process requests for film permits that include the use of drones, and be aware that the process will not begin until all required documentation has been submitted.

Also note that meeting all qualifications required of a Remote Pilot does not guarantee that permission to fly a small UAS over State property will be granted. CFC State partners (Caltrans, State Parks, etc.) review applications on a case-by-case basis and consent or deny requests based on location conditions and specific agency guidelines.

Please scan and submit this completed form, along with all accompanying documentation to CFC's Permit Department Manager, Eric Klosterman at: Eric.Klosterman@film.ca.gov.
